UPDATE ON WIRELESS AND BYOD (BRING YOUR OWN DEVICE) INITIATIVE

Wireless Network

- **President Obama Broadband Initiative (ConnectEd) providing fast internet to schools and libraries is scheduled for completion in 2018**
- **February 2014 MDCPS met this goal with over**
 - **20,000 access points**
 - **45,000,000 square feet of space made ready for wireless in over 360 facilities**

How Do We Support 400,000 Connected Users?

- **Infrastructure upgrades:**
 - Increase transfer speed from 1 gigabit of information per second (GBPS) to 10 GBPS
 - Upgraded routers and switches **within** schools to accommodate the increased transfer speed
 - Increase speed **into the** schools with new and faster lines
- **What does this mean?**
 - One gigabit = 1 billion bits *per second of information*
 - District wireless speed = 10 billion bits per second of information is traveling through our district
 - We have fast internet

LESSON 1 Being an American

LEARNING OBJECTIVE What are the characteristics that make up a culture?

Beginning in the 1600s, people from France, the Netherlands, and England set up colonies in North America. The French settled mainly in what is now Canada. Some also made farms around the Great Lakes and along the Mississippi River. The Dutch established New Amsterdam, which we now know as New York City, and settled farms along the Hudson River. English immigrants settled all along the east coast of North America. By the late 1600s and the 1700s, people started arriving from Germany, Sweden, Ireland, and Scotland. These early immigrants created the thirteen colonies that became the United States.

Some people who came to the Americas did not come willingly. Many people from western and central Africa were taken by force from their homelands. They were brought by ship across the Atlantic Ocean to the Americas and sold into slavery. In 1807, Congress passed a law that stopped the practice of bringing enslaved people to the United States. By then, some 500,000 Africans had arrived and become part of the United States.

From the 1800s to the 1850s, more than 5 million people came to the United States. Most of these new settlers came from Ireland and Germany. They were bringing family and friends with them. The discovery of gold in California in 1848 led many people from around the world to travel to that area in hopes of becoming rich. Thousands of these new immigrants came from China.

Between 1880 and 1890, another 10 million Europeans streamed into the country. Most of the new settlers in this period came from Denmark, Norway, and Sweden. Then a shift in immigration followed. Up until the 1880s, most European immigrants had come from northern and western Europe. From 1880 to 1920, though, a majority of immigrants came from southern and eastern Europe. In these years, about 22 million immigrants arrived from countries such as Italy, Greece, Poland, and Russia.

The year 1980 saw another change in the source of immigration. A larger share of immigrants than before came from Asia and Latin America. Today, more than half of all the people in the United States who were born in another country come from Latin America.

LESSON RESOURCES

The piñata, a colorful figure filled with treats, is a traditional treat associated with Mexico and other Latin American countries. At piñata celebrations, children have fun trying to break open the piñata with sticks. Use how different cultures celebrate holidays, and compare age in the United States.
